Recommendation Letter

Dalal Steel Industries was contracted by the German Federal Agency for Technical Relief THW with the planning, designing, manufacturing, delivery and installation of 90 prefabricated shower containers for the Za'atari refugee camp near Mafraq in Jordan.

This project was executed in a very professional manner through the company personnel who proved to have the professional capacity in carrying out such kind of work.

Dalal Steel Industries were able to execute the works within the time line set out for the completion of the project, meeting deadlines and being helpful to solve technical challenges.

The coordination and collaboration from Dalal Steel Industries was appreciated by the THW.

This certificate was issued upon the firm's request.

Peter Kussmaul

Chief of Operations THW
